

MANCHESTER MEDICALS CHAPERONE POLICY

Your comfort and dignity is our first priority

Your doctor is a male doctor usually working alone. A chaperone can be arranged (usually a registered nurse), if you would feel more comfortable with somebody else present.

Please advise if you require a chaperone at the time of booking, and this can be arranged.

Please be aware that not all appointment times may be available in this instance, depending on the availability of the chaperone.

You are also welcome to bring a friend/relative with you if you would feel more comfortable.
